

FIRE PERFORMANCE

of FEEL WOOD planks

The European Union has defined the CWFT (classified without further testing) –method for parquet floors which are taken up in the fire classifications.

You can find the table of the judgement criteria with the respective fire classes in the EN 14342.

If products fulfil the criteria of these rules it is not necessary to carry out a fire check. The classification is valid without any further check from the table.

Feel Wood planks with surface coating according to the EN 14342.

Species	Fire class
Beech, Oak, Spruce	C _{flr} -s1
All other species	D _{flr} -s1
